## Services & Pricing

Sacred simplicity for your space, your body, and your being.

# Hello There!

Welcome to Saucha Living. If you've landed here, you're likely craving more ease in your home, your mind, or your day-to-day rhythm. At Saucha Living, we believe your space should support you, not drain you. Whether you're preparing for a move, settling into a new season of life, or simply ready to create more flow where you live and work, we're here to help. Together, we'll clear out what no longer serves you and make space for what's truly supportive. This guide will help you understand how we can work together, what to expect, and the cost of your investment. If what you see feels aligned, your next step is to schedule a discovery call to ensure we are the right next step for you on your journey and begin planning how we can support you.

*Terrin Marino*

Founder, Saucha Living

# My Organizing Journey

Saucha Living was born from my own journey toward peace, clarity, and simplicity. My own seasons of challenge and renewal taught me that true harmony begins when we care for our inner and outer worlds as one connected whole.

Before launching Saucha Living, I spent 15 years in the U.S. Navy, serving as a Chief Petty Officer, with roles in Information Technology and Knowledge Management. I understand firsthand the value of structure, organization, and compassion in leadership. I approach every project with patience, presence, and a genuine desire to help others find balance and cultivate a life they love.

Organizing, for me, is more than creating order; it's about helping people breathe easier. It's about clearing the physical and emotional clutter so your home or workspace supports the person you are becoming.

Through Saucha Living, my mission is simple: to help families and small businesses create spaces that reflect peace, purpose, and possibility. Every project is personal to me, and I'm honored to walk beside you as you make space for what truly matters.

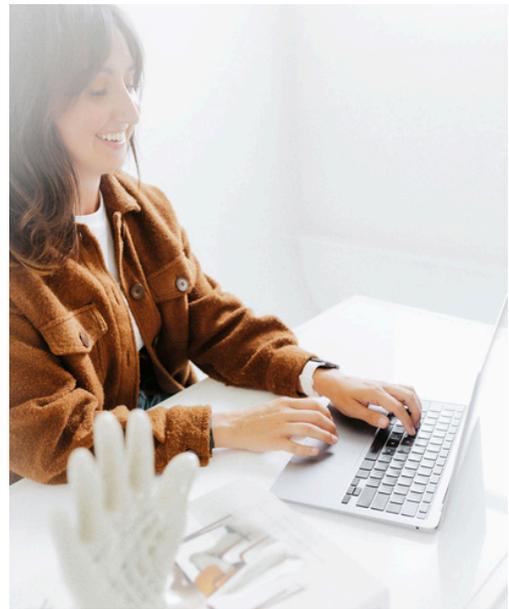

*“The first step in organizing is to honor where you are and create space for where you’re going.”*

# Our Approach

Your home holds stories, memories, and energy that shape how you feel each day. Our process is designed to honor that. We don't just "tidy up." We help you reconnect with your space in a way that feels grounding, intentional, and sustainable. Every drawer, corner, and surface has the potential to breathe again, and when it does, so do you. Our blend of organizing, attention to detail, structured systems, design, and mindfulness practices allows you to live lighter and more fully, surrounded by what matters most.

Every home functions differently, and each project unfolds at its own pace. Your emotional readiness and decision-making process matter. Our work is a partnership. I bring guidance in flow, function, and creating spaciousness within your home. You bring insight into how you live and what truly matters to you. Together, we remain flexible and responsive to the natural rhythm of the process.

# Our Process

01

## BOOK A DISCOVERY CALL

Schedule a complementary 20-minute discovery call to explore your goals, review your space, and ensure we are aligned before moving forward.

02

## BOOK A SESSION OR PACKAGE

Following the discovery call, you may choose to move forward with single sessions or a multi-session package based on your needs and project scope.

03

## SCHEDULING

A 50 percent deposit is required to confirm scheduling. Cancellations within 24 hours of a scheduled session will incur a 50 percent service charge for that day. The remaining balance is due upon completion of each scheduled session.

04

## PROJECT PHASE

Once your dates are secured, your project officially begins, moving into our project phase.

# Project Phase Timeline

01

## **SORT & EDIT**

This foundational phase focuses on decluttering and decision-making. Your presence is required as we sort items together at a pace that's manageable for you, clarifying what stays and identifying items for donation or release with care and intention.

02

## **MEASURE, DESIGN, PRODUCT SELECTION**

After decluttering, measurements are taken as needed. Functional layouts are assessed, and organizing products are selected to support flow, use, and sustainability within your space.

03

## **ORGANIZING & PLACEMENT**

This is the hands-on implementation phase. At this stage, you're welcome to step away while we work. Products are placed, systems are built, and your home is organized with intention to support your daily routines and flow. Labeling is completed at the end, once everything has found its home.

04

## **REFINE**

Organization evolves through use. After living with the systems for a period of time, refinement sessions allow space to identify what's working, what isn't, and where adjustments may be needed. Together, we fine tune and support the systems so they feel natural, functional, and sustainable.

# Sessions & Rates

Sessions are scheduled in two-hour increments with an option to book up to three sessions per day when available. Package pricing options are made available after your discovery call to ensure clarity and alignment.

For larger spaces or high-volume projects, enhanced sessions with two organizers are available. A second organizer may be added at a rate of \$70 per hour to provide additional support and momentum.

<b>Standard Rate</b>	A steady, efficient pace with one organizer. Ideal for small spaces or focused resets. (2 hour minimum)	\$75
<b>9-Session Package</b>	Best for smaller projects or a lighter amount of belongings. Approx. three full days (18 hours) <u>\$50 Savings</u>	\$1300
<b>12-Session Package</b>	A good fit for fuller spaces or projects that need more time to sort and settle. Approx. four full days (24 hours) <u>\$75 Savings</u>	\$1725
<b>18-Session Package</b>	Ideal for high-volume areas or projects that unfold over multiple days. Approx. six full days (36 hours) <u>\$150 Savings</u>	\$2550

# Home Organizing & Design

Creating a home that feels easier to live in often begins with slowing down and looking at what is no longer working. Together, we focus on how your space functions in your day-to-day life and where small shifts can create more ease. The goal is not perfection. It is relief. A home that supports you rather than adding to your overwhelm.

Every home has natural limits. Storage is finite. Space can only hold so much. Together, we make intentional and realistic choices around what stays and how your belongings are supported within the space you have.

Each session is collaborative and grounded. You are not doing this alone. I offer steady guidance as we move through your space together, helping you make thoughtful choices that support your needs, your habits, and the season of life you are in.

## YOUR INVESTMENT INCLUDES:

- ✓ Trauma-informed, mindfulness-based guidance throughout every session
- ✓ Emotional support and decision coaching when overwhelm arises
- ✓ Personalized product sourcing and custom labeling
- ✓ Thoughtful recommendations to support flow and daily use
- ✓ Complimentary removal of trash and donation items, up to vehicle capacity per session

# Downsizing & Unpacking

Downsizing and unpacking often take place during seasons of transition. A move. A life change. A desire to simplify and carry less forward. Downsizing focuses on reducing what you manage in your home. Together, we sort through belongings and make intentional decisions about what will remain and what you're ready to release. The process is thoughtful and paced with care, allowing room for both clarity and reflection.

Unpacking begins once you are in your new home. Belongings are placed with intention using what you already own. Furniture, décor, and personal items are arranged with attention to flow, balance, and visual cohesion. When needed, guidance is offered on product options that can enhance function and flow. The work is collaborative and structured. The goal is a home that feels settled and supportive of your next chapter.

## YOUR INVESTMENT INCLUDES:

- ✓ Trauma-Informed support through sorting and downsizing decisions
- ✓ Mindfulness-based guidance and specialized support for ADHD, neurodivergent needs, and hoarding recovery
- ✓ Complimentary removal of trash and donation items, up to vehicle capacity each session

# Specialty Services

## Seasonal Styling & Storage Maintenance

As seasons shift, so do your needs. Swap wardrobes, rotate décor, maintain storage systems, and keep your home feeling aligned year-round. Seasonal styling & storage support available for Spring, Summer, Fall, and Winter.

## In-Home Clarity Consultation

If you enjoy doing the work yourself but want professional guidance, this session offers a fresh perspective and a clear path forward. We'll assess your space, identify what's blocking flow, and I'll create a personalised plan you can implement at your own pace.

- Consultation: \$275
- Includes mood board, layout recommendations, and product suggestions designed to fit your style, goals, and budget.

## Construction Consultation

If you're remodeling or building, I'll help you make intentional design choices that keep your new space functional, organized, and beautiful from the start.

- On-Site Consultation: \$150
- Includes walkthrough, design recommendations, and follow-up notes.

## Home Management & Concierge

Your days are full. From dog walking and laundry care to errands and everyday household tasks, this service is designed to help you create breathing room. Weekly, Bi-Weekly, and Monthly Maintenance Plans Available

## Organization Refresh Membership

Recurring custom support designed to keep your home's systems fresh and functional. Available for clients who've already completed a full project and want continued support. Includes upkeep of previously organized spaces, minor updates, and light styling.

## Business Storefront & Inventory Organizing

Your business runs more efficiently when your space has a clear structure and systems that support you. We'll help you streamline your processes, inventory spaces, and curate an inviting environment staged to promote sales. You'll spend less time searching and more time serving your customers.

## Virtual Organizing & Declutter Coaching

Remote guidance, tailored action plans, and accountability check-ins to help you make real progress that supports your life and who you're becoming.

- Hourly Rate: \$60 /hour
- 3-Session Bundle: \$160 (\$20 Savings)

# Senior Move Management

## YOUR INVESTMENT

Projects begin at \$3,000 for a studio or one-bedroom move within 50 miles.

Pricing varies based on scope, volume, and distance.

Later-life transitions often carry both physical and emotional weight. Leaving a longtime home can feel overwhelming for seniors and their families, especially when decisions are tied to memory and meaning.

This deep work supports older adults as they transition into a new residence with care and dignity. Together, we sort through personal belongings and make thoughtful decisions about what moves forward, what may be donated or passed on, and what is ready to be released. Support may include coordination with estate sale professionals when appropriate.

Once in the new home, familiar items are thoughtfully arranged to create comfort, flow, and a sense of continuity. Furniture, artwork, and meaningful pieces are placed with intention, with guidance provided when additional items may support daily living or safety. Trash and donation items are removed and repurposed when possible, up to vehicle capacity per session.

“

*Terrin was warm, kind, and genuinely cared/  
listened to my concerns. I never once felt judged  
about the clutter or the chaos in my space. She  
actually welcomed it and was even excited about  
it which was so refreshing and really put me at  
ease! While I was letting go of some sentimental  
things, I got unexpectedly emotional, and Terrin  
was so reassuring, and comforting. She truly  
felt like a friend in that moment.*

– EBONY,  
ABERDEEN, NC

# FAQ's

## Do I need to clean before you arrive?

No. This work begins exactly where you are. For safety reasons, any known hazards such as mold, pest activity, or other conditions requiring protective equipment must be disclosed in advance so appropriate support can be arranged before our organizing work begins.

## Will you make me get rid of things? What happens to the items I let go of?

Never. You remain in control of all decisions. I believe in sustainability and giving back. Whenever possible, I donate items to local ministries and non-profits in need rather than large thrift corporations. I also repurpose and rehome pieces to ensure they find new life and bring joy to someone else.

## Should I buy bins or products before we start? Do you shop for products?

I recommend that you **don't buy anything ahead of time**. More containers can sometimes create more clutter. I believe in a less-is-more approach and only suggest products when I know they'll truly enhance your space's function and flow. Yes. With your approval, I can source and recommend products aligned with your budget, values, and style.

## How long do projects usually take?

Every home is different. Timelines depend on the volume of items, your decision-making pace, and the scope of work in relation to your desired outcome. Most projects unfold over one to three full-day sessions (6 hours each). Our goal is to find a rhythm that feels manageable and fits your priorities.

## Do you work with ADHD, neurodivergent, or hoarding clients?

Yes. My approach is gentle, nonjudgmental, and centered on how you naturally think and live. We move at your pace, and collaborate to implement systems and layouts that feel supportive and easier to maintain long after our sessions end.

# Why Choose Saucha Living

Your home should hold you, not overwhelm you. Through mindful organization and intentional design, we help you rediscover the beauty in your space and the peace that comes from simplicity. Saucha Living is where structure and soul meet. We help you cultivate a balanced and functional environment, so you can focus on what matters most.
